<p>LTO: Tacts and points to pictures of each of the following categories (5 stimuli in each set): NOTE: Alternate point and tact responses. Teach a point learn unit alternated with a probe for the tact (or vice versa). If the tact is accurate reinforce and continue with the next point to learn unit. If the tact is not correct, do a correction for the tact (10 point to LU's and 10 tact responses as probes.) Graph on same graph with the tact as a closed circle and the point to as an open circle. 20/20 for all: reptiles</p>								
Criterion: 20/20 Modified
