

Touchstone ABA Celebrates 10 Years

At Touchstone ABA, we're celebrating 10 years of providing quality ABA services to individuals with a wide variety of learning needs, as well as consultation to schools, school districts, parents and caregivers. Since March 2014, Touchstone has been dedicated to transforming lives through its application of the science of behavior. We were established with a vision toward excellence and a dedication to the highest industry standards for effective ABA services based on the principles of behavior.

Our organization's commitment to excellence and innovation has been the cornerstone of our success. Across our six locations and with a presence in dozens of schools, Touchstone has touched the lives of countless individuals and their families. Operating in Houma, Thibodaux, Hammond, Lafayette, Baton Rouge, Northshore, and New Orleans, we also actively participate and support many community programs, events, and initiatives across Southern Louisiana.

Touchstone's connection to one of the largest research groups in the field of ABA gives our practitioners the opportunity to efficiently implement the latest research findings to help our clients reach their goals. Those findings are also used to continuously develop our extensive training program for employees.

Using the CABAS® model (Comprehensive Application of Behavior Analysis to Schooling), Touchstone takes a systematic approach to designing customized interventions for each child while collaborating with the whole community for the benefit of the client. This means communication and coordination with schools, other healthcare providers who may serve our clients, parents, caregivers and families. As we often say, CABAS® allows us to use "all the tools in the toolbox" to expand a client's repertoire.

Touchstone employs a team of certified and experienced behavior analysts who are deeply committed to their field of practice and the progress of each client. Touchstone clinicians utilize evidence-based practices while continuously updating their methods to incorporate the latest research findings in the field.

We are excited to celebrate 10 years of impactful service delivery and look forward to many more years of making a difference in our clients' lives.
